

NEW IMPROVED Safety Gumboot

Synonymous with New Zealand industry safety gumboots have been relied upon for decades. From farmer to miner, from construction crew to fire crew, our gumboots have built a solid, performance based reputation in the toughest environments.

Proudly New Zealand made safety gumboots takes that performance to a new level. Along with a new refreshing aesthetic, new levels of comfort are provided through enhanced fitting in the foot, toe and calf, and under foot through cushioned dual density Polyurethane insoles.

At Bata we make sure our gumboots are made to the highest standards. To meet the approval of the NZ Standards Association our boots are tested by an independent laboratory (Lasra).

We also carry out very specific in-house testing on our raw materials as well as daily testing on the finished gumboot. That's why when it comes to quality industrial gumboots you can't buy better than Bata. The sole compound used on Bata gumboots has been tested as having good resistance to:

- Sheep, cattle and pig manure
- Fish and vegetable oil
- Sodium hydroxide at 10%
- Sulphuric acid at 30%
- Good slip and abrasion resistance
- Unlimited warranty for any manufacturing defects

NEW IMPROVED Bata Safety Gumboot

Synonymous with New Zealand industry safety gumboots have been relied upon for decades. From farmer to miner, from construction crew to fire crew, our gumboots have built a solid, performance based reputation in the toughest environments.

Proudly New Zealand made safety gumboots takes that performance to a new level. Along with a new refreshing aesthetic, new levels of comfort are provided through enhanced fitting in the foot, toe and calf, and under foot through cushioned dual density Polyurethane insoles.

With 2 revolutionary new sole designs that are durable and oil & acid resistant surety under foot and excellent multi directional slip resistance.

Comfortable for the longest shifts, the new improved safety gumboot is destined to become a firm favourite across New Zealand industry, just like its hard working and hard wearing predecessors.

Outdoor tread for rough and uneven terrain.
